
My R1200GS

Posted by Dr Rich - 2006/11/30 12:06

It's a little 'individualised' and needs a bit of a tart up after this seasons fun.

Very pleased with this bike, does everthing I want. Well, more weather protection for distance and transforming into a 250 or 400 on the trails would be nice, but you cant have everything.

Where's the pic of the old building/castle taken mate?

That's a nice shot.
